- CS50AI — Intro to AI with Python (Harvard X)
- ML and AI with Python (CS109xa) (Harvard X)
- Python Training (IIT Bombay)
- TCS iON Career Edge — Young Professional (TCS iON)

Durva Amin

Summary

B.Tech student in Information Technology at K.J. Somaiya Institute of Technology, Mumbai, with hands-on experience in data analytics, machine learning, and full stack development. Driven by an entrepreneurial mindset focused on building scalable, data-driven solutions and impactful web applications.

Experience

CodeAlpha (Virtual) – Data Science Intern

remote | 02/2026 - 03/2026

- Built machine learning models for predictive analytics projects.
- Performed data cleaning, feature engineering, and EDA on real-world datasets.
- Delivered insights reports and visualizations for stakeholder review.

Cognifyz Technologies(Virtual) – Data Science Intern

remote | 12/2025 - 01/2026

- Developed classification and regression models using Python and Scikit-learn.
- Created interactive dashboards and reports for business intelligence.

Prodigy InfoTech – Data Science Intern

remote | 01/2025 - 08/2025

- Executed end-to-end data science projects from ingestion to deployment.
- Commended by Manager Deven Chopra for quality of analytical deliverables.

Projects

Style Vault — AI-Powered Digital Wardrobe (In Dev)

AI system that digitizes and organizes clothing. Personalized outfit recommendations based on occasion, location, weather and color preferences.

CuisineCanvas — Recipe Sharing Web App

(github.com/durva912/cuisine-canvas-collection.git)

Recipe platform with diet-based filtering, favorites system, recipe creation, ingredient checklist, and user profiles.

StudentConnect — Campus Social Networking Platform

(github.com/durva912/student-connect-hub.git)

Campus networking platform for KJSIT. Features social feed, blogging, real-time chat, and teammate matching.

WeatherWise — Weather Forecast Web App

(github.com/durva912/weather_wise.git)

A weather application that provides real-time weather updates and forecasts.

CashFlow Buddy — Personal Finance Tracker

(github.com/durva912/cash-flow-buddy.git)

Personal finance management app to track income, expenses, and maintain financial control.
